KENT STATE UNIVERSITY INSTITUTIONAL REPORT ON THE QUALITY OF TEACHER PREPARATION

Mission:

Kent State University was founded in 1910 as Kent State Normal College, an institution dedicated to excellence in teacher education, with a mission to prepare quality teachers for northeast Ohio. The university has grown dramatically during the past nine decades, and is recognized as one of the leading comprehensive universities in Ohio and the nation. Kent State is described as a Carnegie Doctoral/Research Extensive University (one of only 6 in Ohio and 151 in the United States) with 181 undergraduate major areas, and 102 graduate major areas of study in Arts and Sciences, Business, Education, Fine and Professional Arts, Nursing, and Technology.

Teacher Preparation:

The College and Graduate School of Education (CGSE) offers more than 30 undergraduate and 21 graduate majors leading to initial teacher licensure in Ohio. Many graduate licensure programs in areas of school administration and pupil personnel are available as well. The University also offers licensure programs in the colleges of Arts and Sciences, and Fine and Professional Arts, and the School of Technology where students elect a subject major with a minor in education. Programs in the CGSE can be pursued at the baccalaureate, master's, educational specialist, and doctoral levels.

Student Characteristics:

Kent State University's College and Graduate School of Education has an enrollment of 2,805 in teacher education at the undergraduate and graduate (MAT) levels. The student body is 75% female, 25% male. The ethnic composition is 92% Caucasian, 4.5% African-American, .6% Hispanic, .5% Asian, .6% Native American, 1.8% not reported. The average ACT score for University freshmen is 21.3. The grade-point average for majors in undergraduate education is 3.17 and 3.77 for graduate education. The student/faculty ratio is 16.5 to 1.

Admission Requirements:

Students at the undergraduate level must have a 2.50 minimum cumulative grade-point average to be admitted to the College of Education. Further, they must meet a number of criteria for admission to advanced study including established proficiencies in mathematics, reading, and writing. In addition, there are specific criteria for admission to particular majors: Intervention Specialist majors must have a 3.0 in their professional courses; Early Childhood majors must have at least a 3.0 cumulative GPA in order to be eligible to apply for admission to the program; Adolescence/Young Adult majors are required to have a 2.6 in their content area(s); Middle Childhood students must have a minimum 2.75 GPA for consideration to this selective admission's major. Finally, minimum grades in specific courses are required in all majors.

Admission to Student Teaching:

In order to student teach, students must have satisfactorily completed all criteria for Admission to Advanced Study including proficiencies in mathematics, reading, and writing; all coursework (including field and clinical experience) for their degree programs; and they must be given final departmental approval.

Accreditation:

Kent State University is accredited by The Higher Learning Commission and a member of the North Central Association. Preparatory programs offered by the College of Education for prospective teachers and other school personnel are accredited by the National Council for the Accreditation of Teacher Education (NCATE) and approved by the Ohio Department of Education. Additional accrediting groups include: Council for Accreditation of Counseling and Related Education Programs (CACREP), American Psychological Association (APA), National Association of School Psychologists (NASP), Council on Rehabilitation Education (CORE), and Council on Education of the Deaf (CED).

2 Institutions and/or States did not require the assessments within an aggregate where data cells are blank.

3 Number of completers who took one or more tests in a category and within their area of specialization.

4 Number who passed all tests they took in a category and within their area of specialization.

5 Summary Totals and Pass Rate: Number of completers who successfully completed one or more tests across all categories used by the state for licensure and the total passrate.
